K KUDOS

Great British Showering Solutions

For over 20 years KUDOS have been designing and manufacturing high quality showering solutions from our factories in the beautiful Lake District and in Coleraine, close to the stunning NI coast and the inspiring Giants Causeway.

During this time we have built an enviable reputation for producing innovative, precision engineered Shower Doors, Enclosures, Screens, Shower Trays and Wet-Room Systems that deliver the very best in functionality, performance and value, each covered by the KUDOS lifetime guarantee*.

Available through specialist bathroom retail showrooms and backed by our nationwide in-house retail support team to provide complete confidence and peace of mind.

* See website for details.

The Collections

Designed and hand built since 1999 by craftsmen who have an enduring passion for design and an abiding commitment to quality, KUDOS have a showering solution to suit most needs, ranging from over-bath screens, walk-in enclosures and shower doors, shower trays and wet-room systems. With our extensive range of products you are sure to find something to suit your needs, but if not, then consider KUDOS Signature our bespoke shower solution tailored to your exact requirements.

Whatever your choice you can be sure of getting a Great **British** product from a Great **British** company

Over-Bath Showering

Over-bath showering has long meant sacrificing style and performance in order to retain the benefit of a bath, but not anymore. Kudos over-bath screens are both elegant and functional providing you with a practical over-bath showering solution without compromising the showering experience. Choose from the extensive range of KUDOS Inspire hinged single and multi panel screens in both 6 & 8mm glass or the new Ultimate 10mm fixed panel over-bath screens.

Shower Trays

Often forgotten in the selection process, the choice of shower tray is probably the most important decision of all. For complete peace of mind our shower trays are made from the highest quality materials and, as with all KUDOS products, carry our Lifetime Guarantee.

Choose from Kstone trays, available in over 45 sizes or the stunning and innovative Connect2 with it's unique twin outlet design to ensure obstruction free waste connection.

Shower Doors & Enclosures

Innovation, style, performance and value are the hallmarks of all KUDOS enclosures. Choose the minimalist yet classically elegant, KUDOS ultimate walk-in enclosures in 8 or 10mm glass, the timeless Original shower doors in a wide range of styles and sizes, or the stunning Pinnacle8 collection with minimalist styling and featuring 8mm toughened safety glass throughout. All ranges are built to the same exacting standards that have made KUDOS the UK's leading shower enclosure manufacturer.

Wetroom Systems

KUDOS Aqua4ma wet-room system is available in 2 styles of shower decks, Central or Linear, each can be used as a stand alone tiled showering area or combined with Aqua4ma panels to provide a complete wet-floor/room solution. The system is easy to fit and once installed requires no additional tanking so is immediately ready to tile.

Style without **compromise**

inspire

over bath shower screens

Over-bath showering has long been considered a compromise of practicality over style and performance, but not anymore. The bath screen collection by Kudos makes no such compromise.

Kudos has been making high quality showering products for the last 20 years. Hand-assembled using the best materials synonymous with the Kudos brand, our stunning collection of bath screens is designed to complement your bathroom space, whilst providing the benefit of a high performance showering facility.

+ Shower panel & integrated rail in corner option

+ Three panel in-fold bath screen right hand fixing

+ Four panel in-fold bath screen left hand

inspire

over bath shower screens

Characterised by minimalist frameless design and innovative technologies, including unique Click to Lock hinges to hold your screen in place and our unique SmartSeal Technology, the **inspire** bathscreen collection delivers the ultimate in performance and is suitable to be used with high performance shower systems. All screens are treated with Lifeshield™ glass protection for easy cleaning.

Shower Panel & Integrated Rail

The Kudos Over-Bath Shower Panel with integrated shower rail delivers the ultimate protection from water spillage. Its robust construction makes it ideal for use with the most powerful shower systems and its stylish and attractive design will complement any bathroom.

The bowed rail provides increased elbow room and pushes the shower curtain against the bath which helps prevent the curtain billowing and clinging to the bather.

Simple to install as new or as a retro-fit, the fixed panel is permanently sealed to the bath edge and the wall, providing a watertight barrier.

Suitable for all straight edged baths up to 2040mm (Cut rail to suit). 1200 x 800mm corner rail available (Cut 800mm side to suit bath width). Minimum required height above bath edge is 1600mm..

Features

- + 8mm toughened glass with Lifeshield™ protection
- + Fixed panel at 1500mm high x 350mm wide
- + Reversible for left or right hand fixing
- + 20mm wallpost adjustment for out-of-true walls
- + Bowed rail for greater space and comfort

ultimate

over bath shower panels

Simplicity with **elegance**

ultimate

over bath shower panels

Simplicity with elegance

Based on the Kudos ultimate walk-in shower enclosure system, ultimate fixed shower panels offer a simple yet elegant solution to over-bath showering. Available in 4 sizes, the 10mm toughened safety glass panels with Lifeshield™ coating are 1600mm high and with a choice of fixings in either Silver/Chrome, Matt Black, Brushed Gold, Polished Gold, Bright Nickel and Brushed Nickel finishes, you can create combinations to suit virtually all situations.

A retro-fit Foldaway deflector panel allows for smaller fixed panels to be fitted to give maximum access to the bath and controls whilst ensuring that when showering the spray is contained with the bathing area.

Foldaway Deflector Panel

The Ultimate over-bath foldaway deflector panel when in use helps keep water inside the bath and when not in use folds neatly behind the front panel leaving access to the bath.

+ Glass to glass corner with standard fixing kit and optional deflector panel

+ Corner with angled fixing kits and optional deflector panel

+ Front panel with angled fixing kit and optional deflector panel

Space efficient curved panel enclosures

The **ultimate** in innovation

These unique elegantly designed Bow Fronted walk-in enclosures are the perfect solution for smaller bathrooms or where wall space is restricted.

Combining 8mm curved toughened glass panels with Kudos Concept Bow Fronted shower trays, ultimate[®] walk-in enclosures make an ideal bath replacement especially where a door or window position restricts the available depth of the showering area. Available in three sizes, measuring just 700mm at each end providing the bather with a generous showering area for comfort and enjoyment.

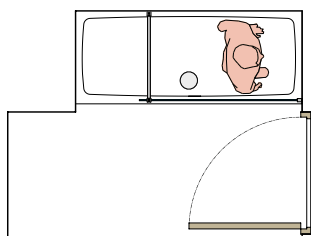

1200mm Curved Panel with Standard Fixing Kit on a 1700 x 700mm Concept Bow Fronted Tray

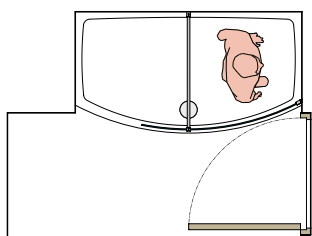

700mm Curved Panel & 700mm Flat Panel with Angled Fixing Kits and a 180° hinged deflector on a 1200 x 700mm Concept Bow Fronted Tray

ultimate collection

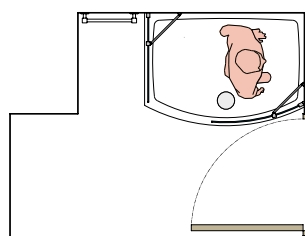

Space efficient curved panel enclosures

A typical 1700 x 700mm bath replacement enclosure positioned immediately behind a door

In the same situation an ultimate^{SE} 1700mm walk-in enclosure creates a more spacious and comfortable showering experience.

An ultimate^{SE} 1200mm walk-in, in conjunction with a hinged deflector panel, provides a perfectly functional walk-in enclosure without compromising on comfort or performance.

ultimate^{SE} Curved Panels feature 8mm toughened safety glass with Lifeshield™ easy clean coating and are available in 1200, 1000 and 700mm options to suit either a 1700, 1500 or 1200mm KUDOS Concept Bow Fronted tray, allowing approx 500mm access to the showering area.

Either replace a standard 1700mm x 700mm bath with a full size SE enclosure or create extra space by using either the 1500mm version or even the compact 1200mm option which, when used with a hinged deflector panel, provides an incredibly spacious enclosure in a space never thought suitable for a walk-in shower.

Curved panels can be fitted directly to tiled floors, however unless the showering area is shaped to match the curve of the screen, drainage may be impaired.

1200mm Curved Panel with Standard Fixing Kit on a 1700 x 700mm Concept Bow Fronted Tray

KUDOS Concept Bow Fronted shower trays

Manufactured from an Acrylic capped ABS skin with a structured resin bonded stone filler. All sizes are available in a high gloss finish or with the new KUDOS^{SE} Slip, Stain and Scratch resistant matt finish.

700mm Curved Panel & 700mm Flat Panel with Angled Fixing Kits and a 180° hinged deflector panel on a 1200 x 700mm Concept Bow Fronted tray

ultimate collection Deflector Panels

The **ultimate** in **style**

Designed to contain over-spray and splashing within the showering area, KUDOS ultimate deflector panels are available in three styles, each option can be retro-fitted so can be added at a later date if required.

Enjoy the pleasure and appearance of a walk-in shower even where space is at a premium. With the ability to fit a deflector panel it is now possible to create a functional and stunning enclosure even in the smallest spaces.

Key Features:

- Three Styles.
- 8 or 10mm Glass options.
- Retro-fit so only buy if needed.

Fold-away deflector panel right hand fixing

Fold-away Deflector sits behind front panel when not in use

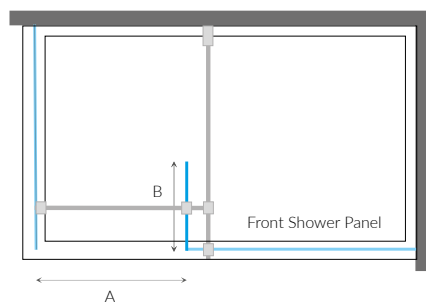

Fixed deflector panels are supplied with fittings to suit both recess or corner

180° hinged deflector panel left hand fixing

ultimate collection

Deflector Panels

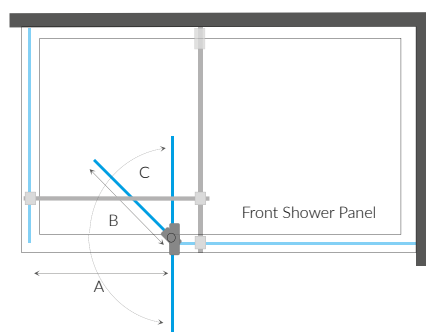

A = Rec min access 500mm
B = 265mm

Fixed Deflector Panel:

Supplied with fixings to connect to standard fixing kit recess or corner. This 255mm fixed deflector panel provides a 90° angled barrier to prevent splashing outside of the showering area.

Not suitable for use with angled or ceiling fixing kit.

Not for use with curved panels

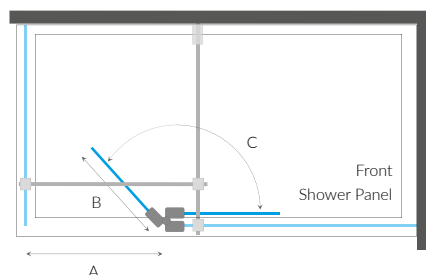

A = Rec min access 500mm
B = 300mm or 400mm
C = 180° rotation for easy access

Hinged Deflector Panel:

Available in 300 and 400mm widths in both 8 & 10mm glass thickness, the hinged deflector rotates through 180° for easy access. Featuring heavy duty hinges with crystal clear seals for minimalist appearance.

Suitable for use with flat and curved panel enclosures and all ultimate fixing kits

A = Rec min access 500mm
B = 300mm
C = 135° rotation stops at optimum position for maximum overspray protection

Fold-Away Hinged Deflector Panel:

Designed to fit neatly behind the front panel when not in use, the 300mm Fold-Away deflector panel stops at a 45° angle to the front panel when in use to provide the optimum protection from over-spray. Available in both 8 & 10mm glass thickness and featuring heavy duty hinges and crystal clear vertical seal.

Suitable for use with flat panel enclosures and all ultimate fixing kits

Note: All Ultimate Hinged Deflector Panels are handed please suffix codes with LH or RH. All illustrations show Right Hand option.

ultimate collection

Fixing options

The **ultimate** in **adaptability**

To secure your shower panel we offer a number of fixing options. For maximum stability we recommend the Standard fixing kit, available for both front panel and side panels. However, if it is not possible to use this style of fixing, we also offer an angled fixing kit in 2 sizes or a glass to ceiling support which can be cut to the desired length.

**+ Standard Fixing Kit**

Shown: Front panel fixing kit with side panel fixing kit. Each stabilising bar is 1000mm long and can be cut to suit. A 1500mm front panel kit is also available.

+ Angled Fixing Kit

Available in 300mm or 500mm options.

+ Ceiling Fixing Kit

Ceiling fixing bar is 600mm long and can be cut to suit ceiling height.

See page 36 for suitability of fixings based on the configuration of your walk-in enclosure.

ultimate SE Space Efficient Curved Panel Walk-In Shower Configurations

Recessed

Corner

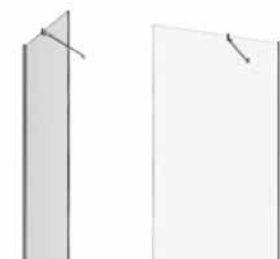

Designed to fit a dedicated Bow Fronted Concept tray, these Ultimate space efficient curved panels enable you to create a walk in enclosure where wall space is restricted and are available in three sizes. When using the smaller 700mm panel we recommend using either the angled or ceiling fixing as the position of standard fixing kit may compromise the showering experience. Also due to the relatively small showering area provided it is recommended that a hinged deflector panel is fitted to the 700mm panel option to provide protection from over-spray.

Fittings required for the SE enclosures, with the exception of the wall post, are the same as those shown for the equivalent flat panel enclosures

shower enclosures

Individually hand built

shower enclosures

With a wide variety of Doors, Enclosures and Screens to choose from it can sometimes be difficult to decide which is best suited to your needs. To help you select the right products we have created a simple guide using icons to represent the various styles, shapes and sizes along with an indication of where they can be positioned. These icons are then used in each shower section to indicate availability and suitability of each product.

In the event that you cannot find the ideal solution why not consider our bespoke service Signature by Kudos, **see page 94** for more information.

* See website for details.

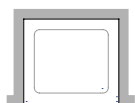

Helping You To Choose Your Perfect **Shower Enclosure**

With such a large range of products that cover a wide variety of styles, shapes and sizes, we have created a few simple icons to assist in finding the right solution for your needs. Essentially, showering positions will be either in a recess, corner or against a single wall. The three icons; Recess, Corner or Three Sided will indicate if a particular door can be used for that situation. We have split door sizes into three categories; Small (760mm +), Medium (1000mm+) and Large (1400mm+) . These icons are shown against each door style to indicate what is available, exact sizes are shown in the detail. We have also created simple icons to graphically show the variety of door styles available. A combination of these icons are shown in each of the enclosure categories to help you find the perfect shower.

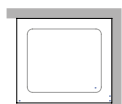

Step 1 - Position

Depending on your available space and design preferences you should start by choosing the location to contain your perfect shower experience.

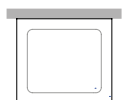

+ Recessed Enclosure

Any shower arrangement positioned between two walls.

+ Corner Enclosure

Positioned in a corner these arrangements work with a standard door and a side panel or a corner only design.

+ Three Sided Enclosure

Fitted against a single wall usually requiring a door and two side panels.

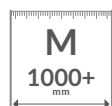

Step 2 - Size

Having decided where to position your shower enclosure it should be easy to determine how much space you have and what size of enclosure will fit. We have split sizing into three categories, small, medium and large.

+ 760mm Plus

Doors and enclosures suitable for sizes 760mm and above.

+ 1000mm Plus

Doors and enclosures suitable for sizes 1000mm and above.

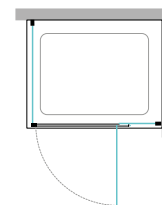

+ 1400mm Plus

Doors and enclosures suitable for sizes 1400mm and above.

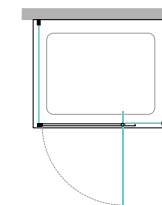

Step 3 - Style

Having chosen position and size you can now see which door styles are available to meet your requirements. Alternatively you can start with the style of your choice and then determine the size and location you need.

Kstone

Durable & stylish shower trays

Kstone 45mm high shower trays are available in rectangular, square, quadrant and offset quadrant shapes in a wide range of sizes. Suitable for a 90mm waste (supplied separately)

connect2

A **revolution** in shower tray design

The stunning looking **connect2** is a uniquely designed low level shower tray just 35mm high, featuring two offset waste positions that ensures an obstruction free connection. **connect2** Trays come supplied with a high flow 50mm waste.

For full technical details, see our [shower tray brochure](#)

All Kudos shower trays are made from the highest quality materials. These include an acrylic capped ABS skin, in either a high gloss finish or a Slip, Stain & Scratch resistant SR material, both of which are durable as well as being resistant to impact damage. A structural resin bonded stone filler provides incredible stability.

Pivot Doors

A combination of perfect simplicity with elegant style and precise engineering, the **original6** pivot door provides the ideal showering solution. From the minimalist chrome plated cast metal handle to the smooth action of the Nylok and stainless steel pivot mechanism, these doors can be fitted between two walls (recess fitting) or combined with the semi-frameless side panel to create a corner installation.

Features

- + 6mm toughened safety glass throughout
- + 1950mm high
- + Suitable for Recess & Corner installations
- + Lifeshield™ Glass Protection
- + Crystal clear seals
- + Nylok and stainless steel pivot mechanism
- + Pivot adjustment for precise closing
- + 20mm adjustment on each wall post
- + Die cast chromed handle

Suitable for:

+ 1200mm pivot wide door with 900mm side panel on a connect2 tray

Curved Corner Sliding Enclosures

With the same technical features of the Straight Sliders the unique shape of the **original6** curved corner sliders bring a new dimension to corner enclosures. The key element of the **original6** curved sliders is that both the sliding panel and the fixed panel are curved, this provides additional stability and allows the sliding panel to remain within the framework of the enclosure ensuring a smoother opening and closing action. This unique design provides an additional benefit of requiring less wall space than would normally be needed for enclosures of this size.

Features

- + 6mm toughened safety glass throughout
- + 1950mm high
- + Suitable for Corner installations only
- + Lifeshield™ Glass Protection
- + Crystal clear seals
- + Concealed twin wheel rollers with dynamic adjustment
- + Quick release bottom guides for easy cleaning

Kstone

Durable & stylish shower trays

Kstone 45mm high shower trays are available in rectangular, square, quadrant and offset quadrant shapes in a wide range of sizes. Suitable for a 90mm waste (supplied separately)

connect2

A **revolution** in shower tray design

The stunning looking **connect2** is a uniquely designed low level shower tray just 35mm high, featuring two offset waste positions that ensures an obstruction free connection. **connect2** Trays come supplied with a high flow 50mm waste.

concept

Uniquely original shower trays

Created specially for use with uniquely shaped Kudos bow fronted enclosures these 55mm high trays require a 90mm waste (supplied separately)

For full technical details, see our **shower tray brochure**

*Kudos Product Specific trays are designed to fit exclusively to specific Kudos Doors/Enclosures and are not suitable for use with any other brand of shower.

shower tray collection

The perfect foundation for the perfect **shower**

connect²

Designed, developed and manufactured in the UK by Kudos, the UK's leading supplier of innovative showering solutions. The stunning looking Connect2 is a uniquely designed shower tray featuring two offset waste positions that ensures an obstruction free connection.

The attractive low profile Connect2 tray will never let a joist get in your way again thanks to the unique offset dual waste outlet. Whether square, rectangular or the new quadrant - whatever the size, the Connect2 tray will allow you to connect the waste fitting without the need to reposition joists or raise the tray onto a plinth.

35mm

connect²

Features

- + Available in both High Gloss and SR slip, scratch, stain resistant finish
- + Unique design avoids the need to cut joists or lift the tray onto a plinth
- + Guaranteed to work with all standard joist sizes and spans
- + Structural resin bonded stone filler for increased stability
- + Super slim at only 35mm high
- + The reinforced colour matched waste cover is magnetically secured, comfortable underfoot and is easily removed for cleaning
- + Supplied with a dedicated high flow waste, rated to 35 litres per minute
- + Covered by the KUDOS Lifetime Guarantee.

High Gloss Shower Trays

Manufactured in our Kudos UK based factories and covered by a lifetime guarantee, all our trays are made from the highest quality materials. These include an acrylic capped ABS skin, which provides a superb high gloss finish that is durable as well as being resistant to impact damage and staining. The structural resin bonded stone filler provides incredible stability. Available in both Kstone and Connect2 options in a wide variety of shapes and sizes.

SR Slip, Scratch & Stain Resistant Shower Trays

Slip Resistant

All KUDOS **SR** Trays feature the latest development in surface material which exceeds all EU standards for barefoot bathing. The slip resistant properties are embedded in the material, rather than a coating on the surface, which means it cannot be removed and is comfortable to stand on.

Scratch Resistant

The textured surface of all KUDOS **SR** Trays provide a high level of scratch resistance ensuring that your tray maintains a pristine appearance throughout its lifetime.

Stain Resistant

KUDOS **SR** Trays also provide a high level of stain resistance. They are easy to clean, requiring no special attention.

A revolution in shower tray design

The unique design of the Connect2 tray ensures obstruction free waste connection irrespective of joist position or direction.

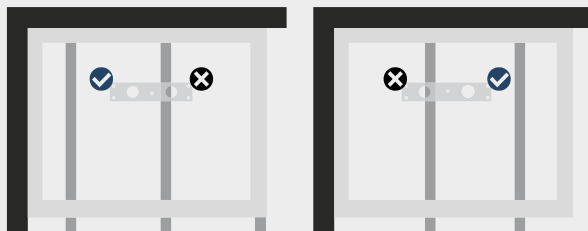

Connect2 trays are supplied with a high flow waste and a blanking plug secured with solvent weld (not supplied) to block the unused waste hole.

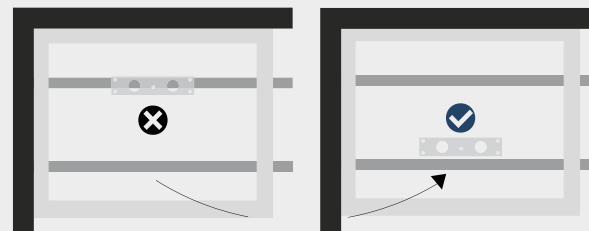

Connect2 trays are supplied with a stylish colour matched linear waste cover, magnetically secured and reinforced for comfort and stability underfoot.

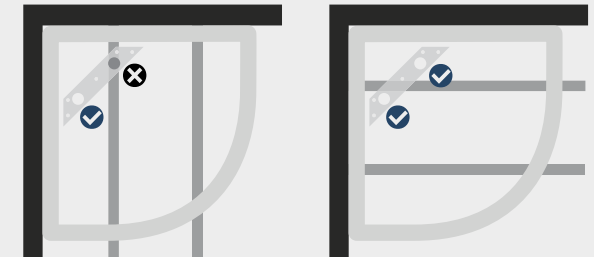

Whether square, rectangular or the new quadrant - whatever the size, the connect2 tray will allow you to connect the waste fitting without the need to reposition joists or raise the tray onto a plinth.

Where joists run parallel to the width of the tray, at least one hole will always be clear.

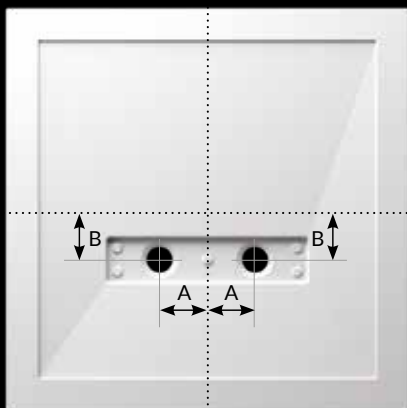

Where joists run parallel to the length of the tray and both holes are obstructed, simply turn the tray 180°. The unique offset position will ensure both will become free.

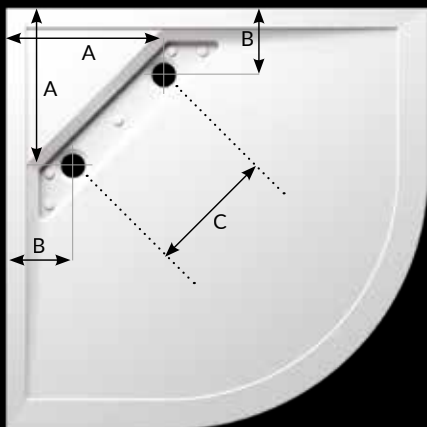

With the unique connect2 design even Quadrant and the Kudos unique Full Curve shape trays has the ability to avoid joists.

Waste locations

Square & Rectangular shower trays

Position of waste holes relative to the centre of each tray.
All sizes: A - 95mm B - 100mm

Quadrant & Full Curve shower trays

Position of waste holes in relation to the 90° angle corner.
All sizes: A - 336mm B - 142mm C - 275mm

connect²

Prices include hi flow waste and trap

Kstone

Manufactured in our own UK factories and covered by a lifetime guarantee, Kstone trays are made from the highest quality materials with a structural resin bonded stone filler to provide incredible stability.

Kstone shower trays are available in rectangular, square, quadrant and offset quadrant shapes - in a wide range of sizes.

Kstone

Features

- + Available in both High Gloss and SR slip, scratch, stain resistant finish
- + Slim design at only 45mm high
- + Structured resin bonded stone filler for increased stability
- + Suitable for 90mm waste (supplied separately)
- + Extensive range of shapes and sizes available
- + Covered by the KUDOS Lifetime Guarantee.

High Gloss Shower Trays

Manufactured in our Kudos UK based factories and covered by a lifetime guarantee, all our trays are made from the highest quality materials. These include an acrylic capped ABS skin, which provides a superb high gloss finish that is durable as well as being resistant to impact damage and staining. The structural resin bonded stone filler provides incredible stability. Available in both Kstone and Connect2 options in a wide variety of shapes and sizes.

SR Slip, Scratch & Stain Resistant Shower Trays

Slip Resistant

All KUDOS **SR** Trays feature the latest development in surface material which exceeds all EU standards for barefoot bathing. The slip resistant properties are embedded in the material, rather than a coating on the surface, which means it cannot be removed and is comfortable to stand on.

Scratch Resistant

The textured surface of all KUDOS **SR** Trays provide a high level of scratch resistance ensuring that your tray maintains a pristine appearance throughout its lifetime.

Stain Resistant

KUDOS **SR** Trays also provide a high level of stain resistance. They are easy to clean, requiring no special attention.

FLEXI SEAL

for a perfect, watertight finish.

Flexi-Seal fits between the edge of the tray and any abutting wall. It provides a flexible seal behind the tiles or wall panels avoiding any issues caused by potential grout or silicone failure.

Flexi-Seal uses a combination of durable flexible rubber with a waterproof butyl based adhesive to give maximum protection where the shower tray meets the wall.

As the rubber is flexible, it will maintain a watertight seal whilst allowing for a certain amount of movement that is inevitable, particularly in new builds.

Flexi-Seal

Flexi-Seal 2m	KFS2
Flexi-Seal 3m	KFS3
Flexi-Seal 4m	KFS4

Shower Tray Leg Sets

All Kudos Shower Trays are designed to be fitted to either a wooden or concrete floor and should be fully supported. They can be raised off the floor by up to 150mm using KUDOS approved leg sets and provided they are fully supported by a minimum 18mm thick moisture resistant base board (not supplied). Leg sets are available in packs of 5 or 9 to suit all tray sizes.

Optional decorative Fascia Covers are available to match the material of Kudos Trays.

Product Description & Codes

Description	Product Code
Leg Set Pack of 5 for trays under 1200mm in length	165246
Leg Set Pack of 9 for trays over 1200mm in length	163872
Decorative Acrylic Fascia Cover 1200mm High Gloss Finish	168653
Decorative Acrylic Fascia Cover 1800mm High Gloss Finish	161491
Decorative Acrylic Fascia Cover 1200mm Matt SR Finish	163321
Decorative Acrylic Fascia Cover 1800mm Matt SR Finish	164758
Pre-machined cut flexible Plinth Fascia for Quadrant Trays	162136

Creating a Fascia Panel

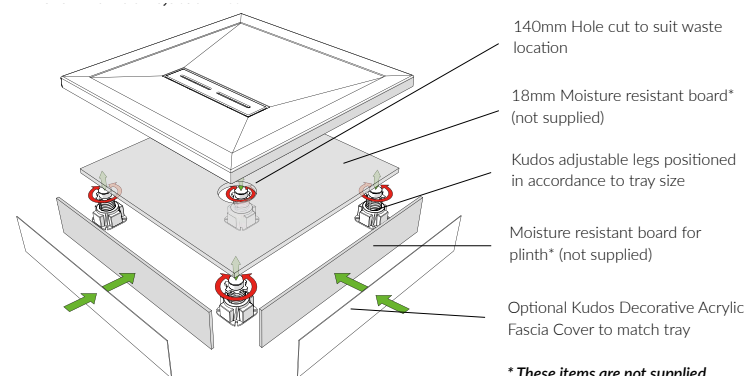

Creating a Fascia Panel for KUDOS Square, Rectangular and Full Curved Trays

Straight Edge (Square & Rectangular) Trays

A Fascia panel can be created using a moisture resistant material (not supplied) which can then be painted, tiled or alternatively covered with a Kudos Acrylic Decorative Fascia Cover to match the tray material.

Full Curved & Bow Fronted Trays

Fascia panels for Full Curve or Bow Fronted trays require a flexible moisture material such as marine plywood, which can either be painted, tiled with mosaics or covered with a Kudos Decorative Acrylic Fascia Cover to match the finish of the tray.

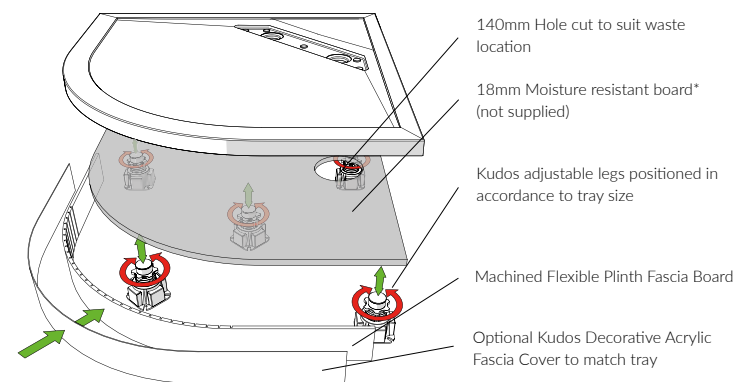

For full details on how to install Kudos Leg Sets please visit our website or scan the QR code below for more information.

Note: In all cases the Acrylic Decorative Fascia Cover is not to be used without a suitable Fascia board.

Creating a Fascia Panel for KUDOS Quadrant Trays

The shape of Quadrant trays require the Fascia board material to be manufactured with machined cuts to enable the plinth to follow the shape of the tray. Kudos Quadrant Fascia Board is pre-machined for this purpose.

This can then be painted, tiled or covered with a Kudos Acrylic Decorative Fascia Cover.

aqua**4**ma

wet room systems

As **versatile** as you need

aqua4ma

wet room systems

There is no doubt that a fully tiled wet-floor extending into the shower area creates a stunning look, but appearances can be deceptive and it's what's lying beneath the surface that counts.

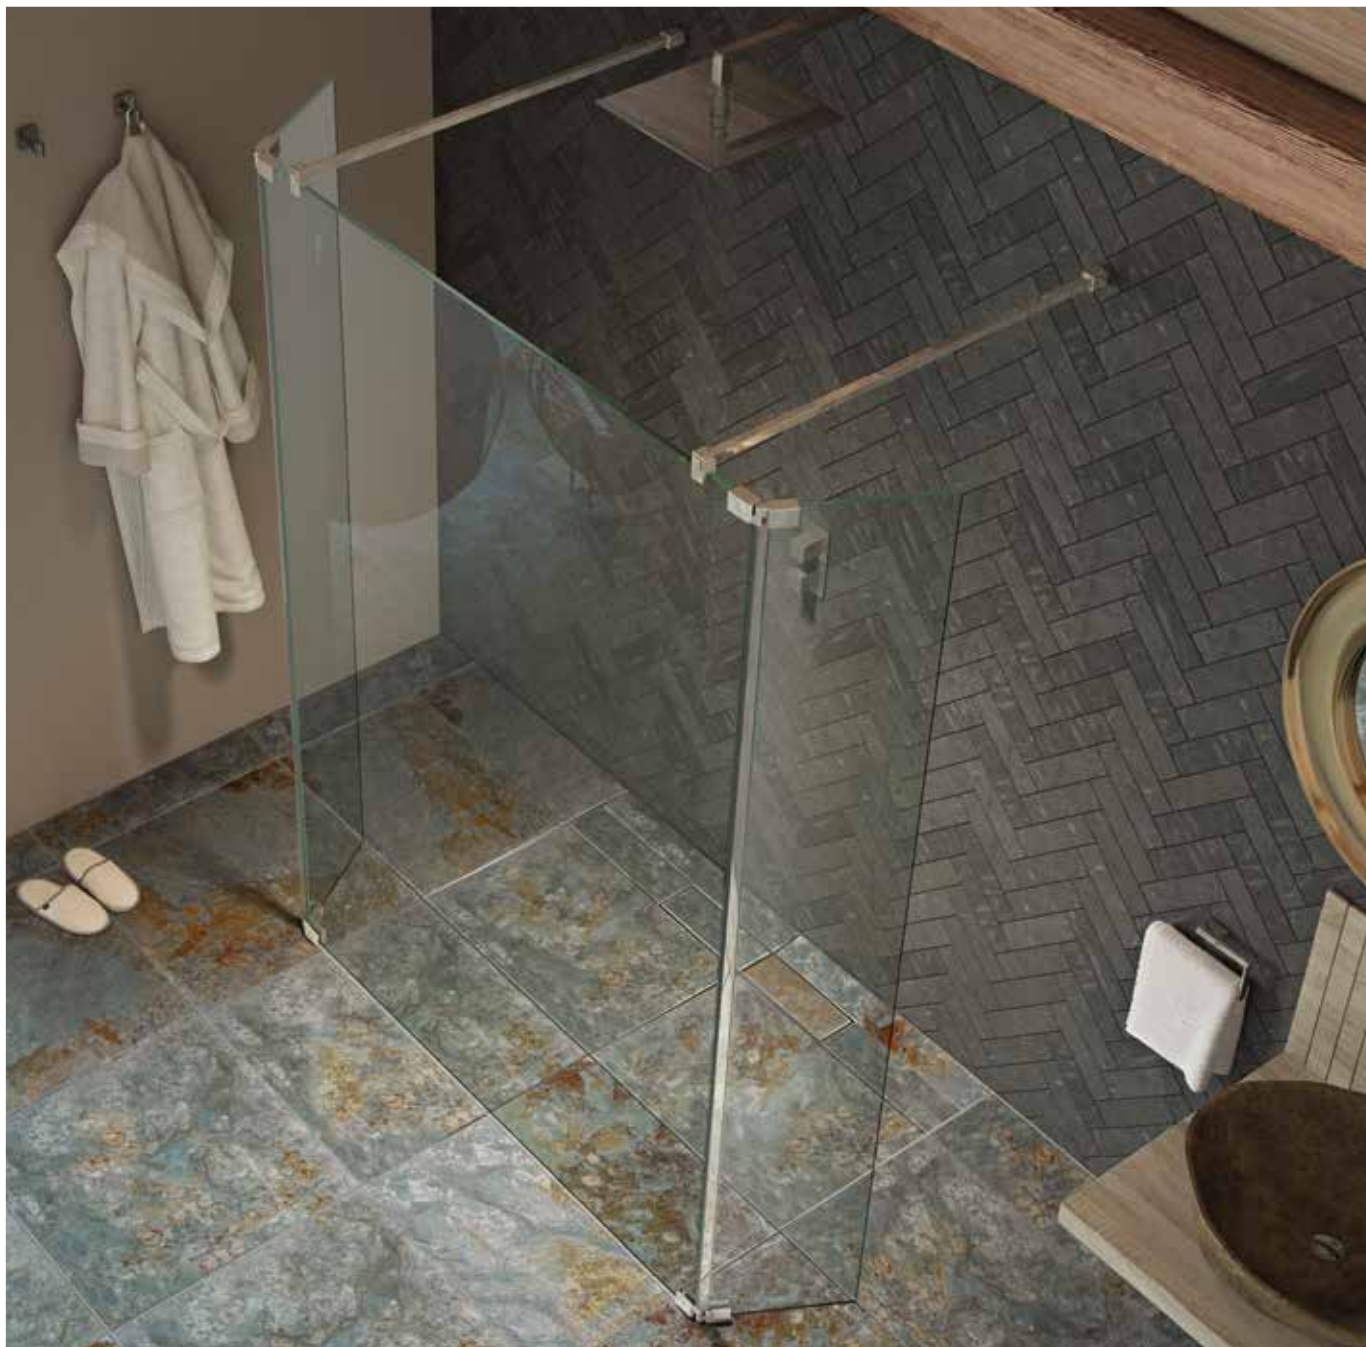

With aqua4ma by Kudos you can create the perfect wetroom with the comfort of knowing that the elements you cannot see, but need to rely on, have been designed by one of the UK's leading manufacturers of high quality showering products with the added comfort of a lifetime guarantee against material or manufacturing defects.

Choose between the versatile aqua4ma central, suitable for both tiled and vinyl floor covering, or aqua4ma linear with its stylish tiled drain cover.

*Guarantee applies to material and manufacturing defects only.

See website for full Terms and Conditions.

+ aqua4ma central shower deck

+ aqua4ma linear shower deck

aqua4ma

wet room systems

Both systems utilize the patented **aqua4ma** in-floor galvanized steel tray and a pre-shaped extruded uPVC shower deck which is waterproof and safe to walk on even before tiling and can be fitted to both wooden and solid floors.

Additional uPVC floor and wall panels can be added to create a complete wet-floor or total wet-room solution. Joints are solvent welded together to form a solid structure which is guaranteed waterproof for life*.

Floor and wall panels can be screwed directly to wooden floors or bonded to solid floors with a cement based flexible tile adhesive. The uPVC panels self seal around screws so no further treatment is required and the system is ready to tile within minutes of fitting. Longevity is ensured as unlike other systems the robust nature of **aqua4ma** panels allow for the removal and replacement of tiles without compromising the waterproof integrity of the system.

Bespoke showering **solutions**

Signature

by KUDOS

Our extensive range of products cover a vast array of showering solutions with an unrivalled selection of overbath screens, enclosures and shower panels.

However, on occasions a standard sized product just will not suit the situation, in which case our bespoke service may be able to help. Many products within the Kudos range can be tailor made to meet your requirements, whether it is a one-off special size shower door, a shaped panel to accommodate a sloping ceiling or a special design enclosure or bath screen for a housing development or hotel.

Whilst not all products can be made to measure we will apply our knowledge and expertise to try and provide you with a solution that meets your needs.

We are able to offer a measure only or measure and installation service, please note that the installation service is only offered where we have done the measuring.

How it works...

STEP 1

Your chosen Kudos Retailer will send us a rough drawing of what you trying to achieve and/or the space available, we will let you know if we are able make something suitable and provide you with a guide price

STEP 2

If you wish to proceed further we will require accurate drawings of the space available, for a small cost we can offer a measuring service, alternatively you can provide your own measurements.

STEP 3

Once final measurements have been received we will provide an engineering drawing, a final price and an approx estimated delivery date.

STEP 4

The next stage is for you to sign off the drawings and a deposit will be required.

STEP 5

Once your product is ready we will arrange for delivery and if you have opted for the supply and fit option our engineer will schedule an installation date.
