THE COMPANY

Roper Rhodes has been providing quality products for British bathrooms for over 40 years.

We invest heavily in developing new ranges that combine good design, functionality and style so you can be sure your Roper Rhodes bathroom is fit for purpose day after day.

We are recognised throughout the industry for our excellent customer service. We carry good stock levels on all our standard ranges so, once you've confirmed your order, you won't have to wait long for delivery. And we're so confident in the quality of our products that they come with a 10 year guarantee, and our sanitaryware offers a 20 year guarantee against manufacturing defects.

PLANNING YOUR BATHROOM

At Roper Rhodes we want to make your life easier. There are a few key elements you should consider when planning your new bathroom.

With our fitted furniture it is easy for you to design and plan your new bathroom. What's more we have simplified the ordering procedure into a series of basic steps for you to follow, see pages 11-13.

What look do you want to create?

A range of styles can be created from one unit, whether it is wall hung for a more modern, European feel, or used with the supplied plinths to create a fully fitted wall-to-wall effect.

Please remember that the photography shown in this brochure is only an example of what can be done.

Decide on the finish and colours

Lighter colours such as high gloss white, chalk white and alpine elm finishes are particularly effective in smaller bathrooms. Colours such as washed oak or mercury can be used to create homely effects. Painted finishes are very on-trend. Don't forget you can order a

different colour carcass to door finish, creating an individual look. There is a choice of 4, including white, silver, graphite and natural oak.

FITTED FURNITURE PRODUCT DETAILS

* Heated mirror pad supplied with mirror

Which worktops?

There are so many finishes to choose from. Premium matt, soft touch laminate worktops are superbly tactile while our black sparkle and white sparkle will sparkle under lighting.

Using Strata solid surface worktops will add a more contemporary and luxurious look and feel.

The layout of your bathroom

Get a feel for your bathroom layout before you start. Look at any wasted areas which could be maximised with the addition of storage units. It is advisable to install a WC unit in a similar position to the current WC to minimise installation costs.

If you do want to change the layout of your bathroom, a good bathroom retailer will be able to guide you through the planning process.

Installation

As with any new bathroom furniture, it is advisable to use an experienced and qualified installer. Many Roper Rhodes retailers will be able to offer a design and installation service or will be able to recommend suitable fitters and tradesmen.

Use the item guide above to populate your new bathroom layout.

STEP-BY-STEP ORDERING GUIDE

With our versatile fitted furniture and huge choice of additional bathroom product it is easy to create your unique bathroom. One which will fit not only your personal style, but also the space and more practical needs that you have.

Use our step by step guide to help create your perfect bathroom.

One of the most important choices when determining the look of your bathroom is door style. Choose from the classic shaker styling of Burford to the simplicity of Aruba and Vetro, or the timeless curved edges of Capella. Door finish will also greatly influence your overall design. There are many fabulous choices to select from, covering all bases from on-trend painted finishes to natural wood looks. Browse through pages 14-63 for inspiration.

01 Define Your Style

Burford

The timeless look and feel of traditional carpentry with all the advantages of fitted furniture. Burford can be styled to either keep things classic or add a more contemporary twist.

Aruba

For pared-back style, inject some colour into your bathroom with the sleek ultra-modern flat door design of Aruba.

Vetro

The glass-like finish of Vetro's ultra-glossy doors lend a sharp, contemporary edge.

Capella

The subtle curved door edges give Capella broad appeal.

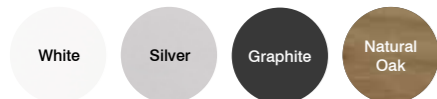

STEP-BY-STEP ORDERING GUIDE

02 Internal Finish

Now select your internal carcass finish. The recommended carcass colour to be used with each door finish for best effect is detailed on pages 114-130, but you can choose to order whichever carcass colour you wish to achieve your desired look.

03 Your Bathroom Space - Choose Unit Combinations & Depth

Assess the space you have available in your bathroom and choose from standard depth (353mm) or space-saving slim depth (218mm) units. Consider which combination of units work for the space of your bathroom.

04 Designed For You - Handle Options

Add the perfect finishing touch to your doors with one of our range of handles. Your choice includes chrome, brass and matt black options. See pages 108-109.

05 Designed For You - Worktop Options

Select a worktop from either our Strata solid surface or laminate options. Alternatively opt for either the solid surface City underslung basin or Motif semi-recessed basin. Both have an integrated worktop for a seamless look which works equally well with both contemporary and classic bathroom designs. See pages 102-107 for further details.

06 Designed For You - Basin & WC Options

Choose your preferred sanitaryware to match the styling of your bathroom. See pages 64-79 for options.

07 Finishing Touches - Colour-matched Panels & Plinths

Don't forget your end panels. Colour-matched to complete your furniture.

Coordinating clad-on 18mm thick end panels, or thicker 28-30mm thick design panels are available in all finishes. These are optional when choosing a range with a colour-matched carcass. If you select a range with a contrasting coloured carcass you will need to use end panels to cover the exposed unit sides. Design panels can also be used between units to achieve a framed effect. See pages 135-136.

08 Complete The Look - Mirrors, Mirrored Cabinets & Wall Cupboard Options

Choose your preferred mirror or cabinet, and maybe also add some useful wall cupboards for extra storage. See pages 80-99 and 137-140.

09 Complete The Look - Lighting Options

Choose your lighting. See page 140.

10 Complete the Look - Bath Panel Options

Coordinate your bath panels. See page 137.

11 Complete the Look - Tap options

Top your basin with our well-engineered and stylish basin mixers. See pages 110-111.

PETER LINDSELL
Product Designer

Whatever your bathroom space, big or small, our fitted furniture offers the flexibility & versatility you need to create a unified bathroom look. Our range has something for every taste & the designs incorporate a host of thoughtful features, functionality & style.

Fitted Furniture

BURFORD

*Elements of traditional carpentry
with the advantages of fitted furniture
in a range of painted finishes*

BURFORD CONISTON BLUE

Define your style with this muted tone of Burford Coniston blue to create a visual statement, balancing modern and traditional styling.

Complete this classic style with a double basin. Ideal for those wishing to make a real design statement and very practical as well. Opt for the Harrow sanitaryware, Keswick taps and Westport door handles to complete this look and create a beautiful balance between classic styling & dramatic good looks.

Alternatively Coniston Blue works equally as well with the more contemporary Archetype basins and WCs for a more timeless look,

For a seamless design include an oval furniture flush button from page 74.

10 year guarantee on furniture 20 year guarantee on ceramics.

ROB SHEAN
Product Designer

Whatever style you choose, we have a number of sanitaryware ranges designed to coordinate beautifully. Manufactured using only the finest materials, our carefully selected ranges have true designer appeal & are complete with soft close, quick release toilet seats as standard.

Such is the confidence in the quality of our basins and WCs we offer a 20 year guarantee.

Sanitaryware

ARCHETYPE

To perfectly complement your fitted furniture choose Archetype, the very epitome of style and simplicity. Both of the space-saving short projection back to wall WCs offer hygienic, easy to clean rimless technology. The comfort height option sits several centimetres taller than standard WCs. Our oval flush button is a specific design for fitted furniture installations, giving a large flush interface without being obtrusive. Semi-countertop basin options will work with standard or slim depth furniture.

ACCENT

The soft modern design of Accent is the perfect companion for our contemporary ranges. Available in both standard & slim depth, the semi-countertop basins offer a deep, practical wash space with a space-saving option if required. The internal uninterrupted smooth surfaces provide a really hygienic and easy to clean, aesthetically pleasing WC design.

£475.30
- 

630mm close coupled fully enclosed WC & seat
£699.80

COVER

This sanitaryware range with its smooth curved design & thin contemporary edges offers generous washing space even on the slim depth semi-countertop option. A choice of three rimless WC options includes stylish back to wall and wall hung versions, the perfect choice for fitted furniture. Alternatively opt for a close coupled WC for a more stand-alone look.

NOTE

The soft organically shaped Note semi-countertop basins look great when teamed with our fitted furniture, with the slim depth option being especially space efficient. The short projection WCs have soft close, quick release seats which are available in either a standard or slimline design.

560mm standard depth semi-countertop basin
£323.00

540mm slim depth semi-countertop basin
£306.00

BLACK COVER CAP UPGRADE

Upgrade your seat cover caps to our smart black finish. (Slim soft close seat only)

ZEST

Zest is a comprehensive versatile range, with slim edges & elegant shapes. Three WC options include a unique 450mm short projection back to wall version, which is ideal for compact bathrooms or where a door may be close by.

MINERVA

Minerva combines simple good looks with practicality. The semi-countertop basin comes in three useful sizes, which maximise wash space. The WCs work well with your choice of soft close, quick release Juno or Minerva seats and include a comfort height back to wall option.

560mm standard semi-countertop basin
£161.50

Designed to work with furniture back to wall WC units. Optional upgrades for torrent cisterns.

*Not compatible with Comfort Cistern when used in Slim Depth furniture

SENSOR FLUSHING

Touch & Contactless Flushing

Touch Operated Dual Flush Sensor Plate
The lightest touch of the black glass-fronted flush plate is all that is required to initiate the flush, and the plate lights up to indicate activation.

Neither are compatible with slim depth furniture

Contactless Dual Flush Sensor Plate
Wave your hand in front of the glass-fronted flush plate to activate either a reduced or full flush.

Contactless Dual Flush Sensor

Use with concealed cisterns

Sensor kit TR9014 **£122.00**

- Powered by 4 AA batteries (easy to change, no tools required)
- Low battery power alarm (Battery life in excess of 1 year)
- Dual flush, Manual override flush, Illuminates on operation
- For wall hung frames and In-wall cistern

210(w) x 137mm(h)

Touch TR9016 **£146.50**

Contactless TR9025 **£146.50**

- Provides a touchless flush, with just the wave of a hand
- Dual flush
- Best used with concealed cisterns in furniture
- Powered by 4 AA batteries
- Low battery power alarm (Battery life in excess of 1 year)
- Works through surfaces up to 25mm thick (including ceramic tiles, fascias & worktops)

CREATE YOUR PERFECT BATHROOM AMBIENCE

Sundown - Warm White
PREPARING FOR BED

Morning - Daylight White
GETTING READY

Daytime - Natural White
APPLYING MAKE UP

Choosing your lighting, inspired by nature

Start the day right with bright, invigorating daylight lighting to boost your morning routine. Once the sun is up and the day has begun, switch to a natural lighting environment, boosting productivity.

As the sun sets, create a calm, intimate and relaxed setting with warmer light tones. When the end of the day arrives, calm the mind with an ambient setting, perfectly preparing you for a good night's rest.

MORNING

awakening & energising

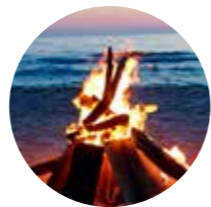

DAYTIME

crisp & bright

SUNDOWN

calm & relaxing

EVENING

intimate & gentle

Create the perfect bathroom lighting

Combining different LED warmth and brightness can replicate the different settings naturally created during the day.

Invigorating

Using a bright 6000K white light and 100% brightness first thing in the morning creates an awakening, energising setting. The perfect way to start any day!

DAYLIGHT WHITE
6000K LED COLOUR
100% BRIGHTNESS

Natural

Combining a 4000K white light with 100% brightness creates a natural environment. This setting replicates skin tones perfectly as is ideal when applying makeup.

NATURAL WHITE
4000K LED COLOUR
100% BRIGHTNESS

Calming

Increasing the warm tones within the light to a 2700K white light produces a relaxing and calm scene. This ambient effect is perfect for unwinding in the bath, or preparing for bed.

WARM WHITE
2700K LED COLOUR
80% BRIGHTNESS

Create the right ambience

Lighting effects our mood and has a big impact on our behaviour. Cooler toned light increases alertness and can help us be more productive in task orientated activities, especially useful early in the morning. While warmer toned light creates a feeling of calm and rest, perfectly suited for later on in the day. With a wide selection of ranges to choose from, your perfect bathroom awaits...

A GUIDE TO OUR MIRROR FEATURES

Our collection of mirrors are beautifully designed & come with a number of innovative features such as Bluetooth® to play all your favourite songs. Create your perfect bathroom environment, tailoring the LED warmth & brightness to suit your mood. Look out for the feature icons below.

LED LIGHTING

Energy efficient LEDs provide high quality, bright practical task lighting whilst being 80% more efficient than older fluorescent and incandescent lights.

VARIABLE WARM TO COOL LEDS & DIMMABLE

Flexibility to adjust the LED warmth and brightness from an invigorating daylight white (6000K) to a relaxing warm white (2700K).

INFRARED SENSOR

Easy to use, an infrared switch allows you to control the mirror with just the wave of your hand, without touching it!

HEATED DEMISTER

Maintain a steam-free mirror reflection in the bathroom with an integrated heated demister pad.

PLAY MUSIC

Integrate your favourite music seamlessly into your bathroom.

CHARGING SOCKET

Conveniently positioned, this charging socket, keeps your electric shaver or toothbrush fully charged.

USB SOCKET

Easily accessed USB charging socket keeps your devices fully charged.

SLIM DEPTH

Our slim depth mirrors protrude 30mm or less from the wall.

IP44 RATED

A GUIDE TO OUR CABINET FEATURES

When additional storage is required, our extensive cabinet range has the solution. Whether it's styling a discreet recessed design, creating a unique bathroom lighting experience or charging your toothbrush. Look out for the icons below.

LED LIGHTING

Energy efficient LEDs provide high quality, bright practical task lighting whilst being 80% more efficient than older fluorescent and incandescent lights.

VARIABLE WARM TO COOL LEDs & DIMMABLE

Flexibility to adjust the LED warmth and brightness from an invigorating daylight white (6000K) to a relaxing warm white (2700K).

INFRARED SENSOR

Easy to use, an infrared switch allows you to control the cabinet with just the wave of your hand, without touching it!

HEATED DEMISTER

Maintain a steam-free cabinet mirror reflection in the bathroom with an integrated heated demister pad.

CHARGING SOCKET

Conveniently positioned, this charging socket, keeps your electric shaver or toothbrush fully charged.

USB SOCKET

Easily accessed USB charging socket keeps your devices fully charged.

RECESSED OR RECESSIBLE

Recessing the cabinet within the wall or partition is a great way to conceal and store all of your bathroom accessories whilst maintaining a clean and clutter free bathroom.

SOFT CLOSE DOORS

Most of our cabinets feature soft close doors to ensure quiet and controlled closure of the bathroom cabinet.

DOUBLE SIDED MIRRORED DOORS

Double-sided mirrored glass means the cabinet mirror can be used when open or closed.

IP44 RATED

Cabinets indicated with this symbol are IP44 rated, making them suitable for use within zone 2 of the bathroom.

Mirrored Cabinets

**STEP-BY-STEP ORDERING**

Don't forget the finishing touches with matching plinths and panels through to complementing your design with a choice of mirrors, cabinets, lighting and taps.

Finishing Touches

WORKTOP OPTIONS

You have a choice of worktop styles, materials & finishes which perfectly complement our fitted furniture ranges.

Recreate the depth of natural stone with a Strata solid surface worktop. Choose from our extensive range of high quality, durable laminate surfaces, also available in a premium soft-touch option. Or give a smooth, uninterrupted finish to a fitted furniture run with a basin & integrated worktop, for a distinctly contemporary look & feel.

Strata solid surface

City basin

Soft touch laminate

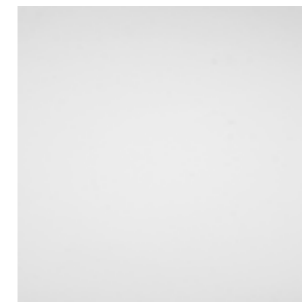

STRATA SOLID SURFACE WORKTOPS

Strata worktops are an ideal solution for those wishing for an aspirational look & the feel of solid surface. The natural stone-like beauty of Strata solid surface makes them a perfect choice for your bathroom.

Strata worktops are completely solid and can be cut to whatever size or shape your bathroom demands, with no need to bond on finishing strips. Simply cut to the desired profile and sand down the end to a fine finish. Adhesive is also available for joining longer runs or corner installations.

As with any solid surface product, darker finishes will show some scratches over time, however these can be very easily sanded and polished out to keep your worktop in pristine condition.

10 year guarantee.

BASINS WITH INTEGRATED WORKTOPS

Expertly moulded into a single piece, our basins with integrated worktops strike the perfect balance between form & function. Choose from the City basin or opt for the semi-recessed Motif basin style for a clean, minimalist look.

CITY BASIN

The natural beauty of the solid surface worktop flows effortlessly into the deep, spacious wash basin.

Provided in 1640mm length, the worktop can be cut down to size to suit your installation and finished so that exposed ends can be visible. To be used with 600mm semi-countertop units only, with a maximum furniture run of 1620mm including end panels. It works equally well with both classic and contemporary bathroom designs.

See page 133 for further details.

Right
City Basin
Solid surface basin with integrated worktop.

MOTIF BASIN

The Motif basin is available in 1640mm length and the worktop can be cut down to size to suit your installation and finished so that exposed ends can be visible. Available in standard or slim depths and left or right handed versions. Motif is to be used with 600mm semi-countertop units only, with a maximum furniture run of 1620mm including end panels. It works equally well with both classic and contemporary bathroom designs.

See page 133 for further details.

SOFT TOUCH LAMINATE WORKTOPS

Pleasant to the touch, these super matt, premium laminate worktops are available in two on-trend shades. At 22mm they are slimmer in profile than standard laminate worktops & the smaller edge radius will help to create a striking, contemporary look for the fitted bathroom. The soft touch finish ensures they are easy to maintain, with the added benefit that fingerprints won't show.

TAP COLLECTION

Designed to deliver the finishing touch to your bathroom, our basin mixers are not only beautiful to look at but superbly well engineered for durability too.

From ultra contemporary to more timeless designs, there is something to suit everyone. Many ranges include a mini basin mixer option, very useful for slim depth basins. Most taps also have a coordinating bath filler. Please refer to the main Roper Rhodes Bathroom Book for more information.

All Roper Rhodes taps use the latest highly reliable ceramic cartridge and ceramic disc technology. As testament to this in-built quality, all of our taps are provided with a ten year guarantee.

218(w) x 275(h) x 180mm(d)
Minimum operating pressure 0.1bar

Chrome finish T661002 **£229.00**

Cranbourne basin mixer with click waste
190(w) x 192(h) x 50mm(d)
Minimum operating pressure 0.2bar

Chrome finish T311102 **£170.00**

Keswick basin mixer with click waste
168(w) x 200(h) x 160mm(d)
Minimum operating pressure 0.2bar

Chrome finish T321102 **£170.00**

Henley basin mixer with pop up waste
224(w) x 117(h) x 167mm(d)
Minimum operating pressure 0.1bar

Chrome finish T261102 **£169.00**

For matching mini basin mixers, bath fillers and bath shower mixers, please see our Bathroom Book or visit roperrhodes.co.uk

LIGHTING OPTIONS

Creative lighting can greatly enhance a bathroom installation & generate a relaxing ambience.

The bathroom cabinets within our range of furniture feature a void behind the back panel, allowing wiring and transformers to be neatly concealed.

When planning your bathroom remember to make allowance for any electrical work which may have to be undertaken before any of your furniture is fitted. Always use a qualified electrician.

Above
LED Lighting
Choose an overhead light, designed for use on top of cabinets or mirrors. Benefit from the latest LED technology which provides a bright, practical task light with energy saving benefits. The light is IP44 rated and supplied with an LED driver suitable for mounting outside zones 1 and 2. See diagram opposite.

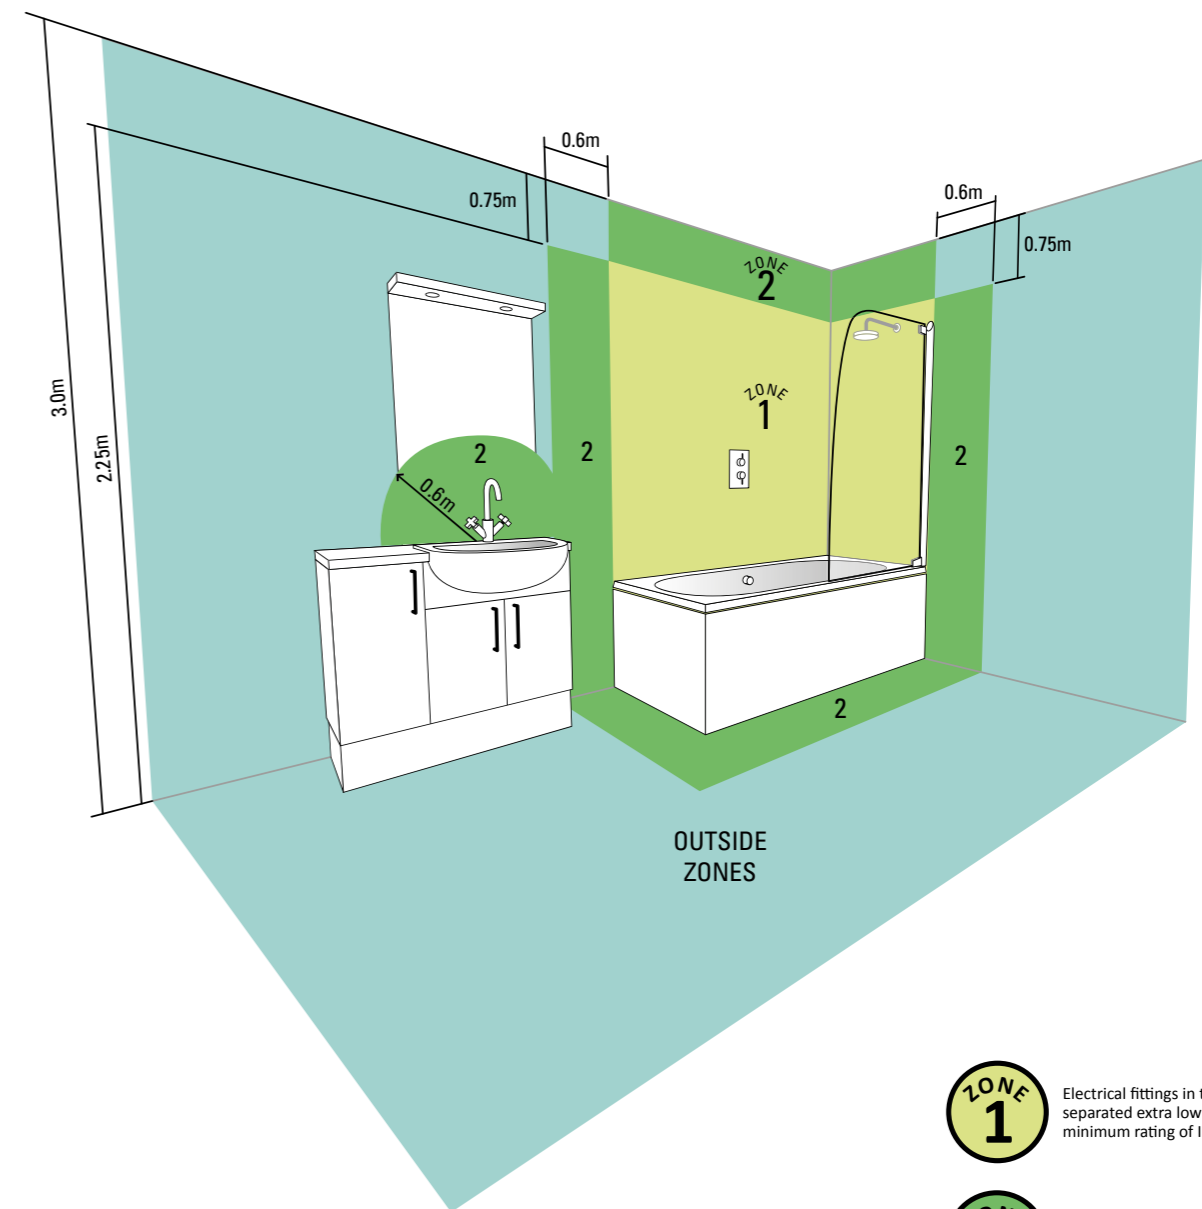

Below
Air Backlit Mirror
The Air backlit fluorescent mirror provides brilliant illumination. With special features such as a heated mirror pad, infra-red on/off switch and a recharging socket, it more than deserves its place in your bathroom. For alternative options see pages 137-140.

LIGHTING SCHEMATIC

300mm Chrome LED light

Zones for equipment in close proximity to baths & showers

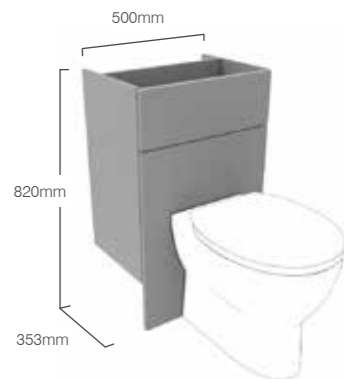

- ZONE 1** Electrical fittings in this zone require separated extra low voltage and a minimum rating of IP44 (splash-proof).
- ZONE 2** Electrical fittings in this zone require a minimum rating of IP44 (splash-proof).
- OUTSIDE ZONES** Electrical fittings in this zone require a minimum rating of IP20.

Technical Information

STANDARD DEPTH UNITS

500mm standard depth back to wall WC unit with fascia/door pack

Features

- Fascia to be cut on site to suit sanitaryware
- Main panel goes to floor
- Front access top fascia
- For compatible back to wall WCs see pages 141-144

* These fascia packs are designed to be used with comfort height WC pans & cisterns, so exclude the Burford moulding

---	-------	-----------	---------

BASINS WITH INTEGRATED WORKTOPS
Motif and City basins feature integrated worktops that are 1640mm in length and designed to fit on a maximum furniture width of 1620mm, including end panels. This allows 10mm overhang at each end.

It is also critical that the basin bowl is positioned centrally on the semi-countertop furniture unit.

Please check carefully that your furniture selection will fit.

PANELS & PLINTHS

Standard Panels

18mm standard filler/clad-on end panel

- Fully edged
- Can be cut to suit different installations
- Use for colour matched end panels
- We recommend cutting filler panels in half when using between units

* Burford end panels have feature tongue & groove effect

18mm tall standard filler/clad-on end panel

- Fully edged
- Can be cut to suit different installations
- Use for colour matched end panels
- We recommend cutting filler panels in half when using between units

* Burford end panels have feature tongue & groove effect

30mm standard design/clad-on end panel

- Clad on to units to create striking effects
- Allows creation of a framed inset door look. If desired these panels can be cut in half and used between carcass units in a run to create this framed look instead of using a full panel each time
- Use with standard depth base units
- Cut down for wall-hung base unit installations
- We recommend cutting filler panels in half when using between units

Thickness of clad-on panels varies according to finish. Please see below:-

- ¹ 25mm thickness
- ² 28mm thickness
- ³ 30mm thickness

* Burford end panels have feature tongue & groove effect & groove effect

Slim Depth Panels

18mm slim depth filler/clad-on end panel

- Fully edged
- Can be cut to suit different installations
- Use for colour matched end panels
- We recommend cutting filler panels in half when using between units

* Burford end panels have feature tongue & groove effect

PLANNING TIPS AND ADVICE

LOCATING THE MAIN ITEMS

Wherever possible, try and install your WC, basin, bath and/or shower in a similar position to that in your current bathroom in order to minimise installation time and costs.

Planning - Key Steps

- Measure your bathroom and draw out a plan, to scale if possible.
- Make reference to where all services are located including soil pipes and water inlets.
- Ensure all dimensions of heights/widths of windows and radiator positions are marked up on your plan.
- Take note of the direction the door opens as this could affect your layout. If it is a hindrance, your door could easily be re-hung by a professional to allow more flexibility.

Once you have the outline of your bathroom, you can experiment by placing different units within your plan. See page 9 for full details of the different sized units available. If you have an odd space at one end of a run of furniture, for example if fitting between two walls or a wall and a bath, then filler panels can be used. The worktop can run across the top of the furniture between the two walls to create a continuous look. Roper Rhodes storage shelf units are supplied in a flat pack format, allowing your installer to cut down the width of the shelves and base components from the nominal 300mm width so that the unit can be customised to suit any size.

When you are happy with your initial design layout, take it to your Roper Rhodes stockist. Your retailer may come up with some further design ideas which may help inspire you.

Corners

If due to the size of your room there is an odd space, then two pieces of filler panel can be used to space the units as necessary.

Worktops can be fitted together on top of your corner configuration using a mason's mitre jig and worktop jointing bolts. Your bathroom fitter will be able to advise further.

WC Units

The use of a WC unit and concealed cistern can create a clean uncluttered look for your bathroom. Dual flush concealed cisterns available from Roper Rhodes operate by a pneumatic push button which can be sited in the front removable fascia of the WC unit, or on the top of the unit if desired.* Our WC units feature a panel which goes to the floor, removing the need for unsightly filler blocks that are sometimes used to fill the void between the back to wall WC pan and the plinth. As a consequence, it is recommended that when fitting commences, the WC unit height is set first with the other units running off. If the floor of the installation is uneven, then the main fascia panel can be scribed to fit.

If a wall hung WC pan is required, then a suitable supporting frame must be used see page 75. Never fit a wall hung pan directly to the fascia of a WC unit only. Speak to your retailer for more details on compatibility.

Basins

Roper Rhodes semi-countertop basins are available in both slim and standard depth formats and can be mounted on both laminate and solid surface worktops by an experienced fitter.

Slim Depth Furniture

The key units within the Roper Rhodes Fitted Furniture range are available in both standard and slimline formats. Using slimline furniture in small ensuites or cloakrooms can help maintain vital space in the room without sacrificing bathroom storage.

* Only with standard depth WC units. Flush buttons can only be installed on the front fascia of slimline units.

PLANNING TIPS AND ADVICE

Concealing Pipework

One of the benefits of using Roper Rhodes Fitted Furniture is that unsightly pipework can run along skirting boards and walls whilst being concealed behind the units. The furniture is designed with a plinth height of 180mm, which means that even soil pipes can run under the units.

All standard depth base units feature a generous 50mm void at the back, which allows waste pipes and copper pipes to run along the walls whilst being concealed behind the units. Your fitter will only have to notch out the side panel of the unit where the pipe traverses. In addition to the 50mm pipe void, basin units in both slim and standard depth configurations feature a removable back panel to aid the installation process. (See diagrams below).

Electrics

When planning your bathroom, note where any lighting or electrical supply cables are situated. It may be necessary to move these. It is advised that this work is done after the old bathroom fittings are removed but before the new installation begins. Always use a qualified electrician for any work carried out in a bathroom. Your retailer may be able to advise when to schedule an electrician, or consult your fitter or electrician for more advice. Please note that Roper Rhodes cannot give specific advice on electrical installations.

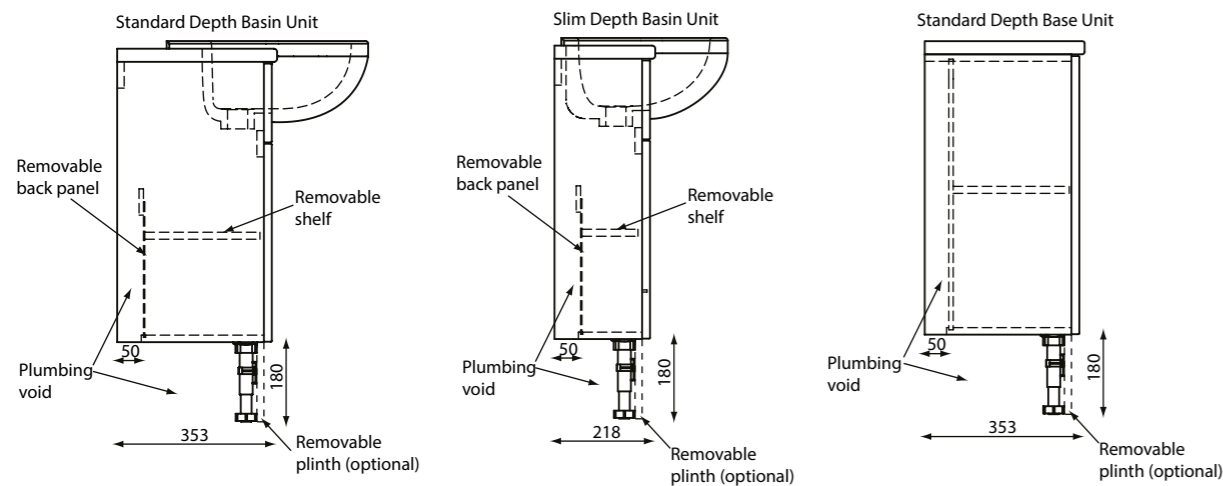

When planning where to locate lighting, it is vital that the IP rating of the device is taken into account as this will affect which zone of the bathroom the fitting can be located in. Your electrician will be able to advise further on bathroom zones and which electrical appliances can be sited where. Remember to allow for the provision of switching for any new lighting.

It is recommended that, whilst you are at the planning stage, you make an allowance for the installation of a suitable extractor fan to remove excess water from the atmosphere. After the furniture has been fitted, plan for an electrician to come back and install light fittings or electrical devices which are used.

Mirrors

Roper Rhodes mirrors (over 560mm wide) feature heated mirror pads to prevent them from misting up. Your electrician can connect the heated mirror pad to the domestic supply so that the pad is switched on and off when your bathroom lighting is operated. Heater pads should not be connected to a permanently live supply. Please note, mirrors must never be installed above a bath or shower.

Plumbing Voids

PLANNING TIPS AND ADVICE

Filler Panels

Filler panels are available to fill gaps at the ends of runs of furniture and to clad ends of furniture for a perfect match.

Clad-on Design End Panels

Clad-on design end panels are available in slim and standard depth configurations and are 25-30mm thick (depending on the finish, see pages 135-136 for further information). Give a different style to your bathroom design by cladding these to the sides of units for a framed look. Design panels are 820mm tall, allowing them to run from the floor to the underside of the worktop if necessary. They can be cut down if base units are wall hung. The slim design panels can also be cut down to be used with wall cabinets or wall cupboards.

You can achieve very different effects by contrasting the panels and fascias of units. Matching colours between doors and accent panels creates a subtle yet 'solid framed' look.

Handles

The comprehensive range of handles in the Roper Rhodes range allows a multitude of looks to be created. Move them into different positions on the door, or change their orientation, to create the look you want on your furniture.

Please note that all doors will require your fitter to drill and fit your handles so that you can position them exactly where you want.

Bath Panels

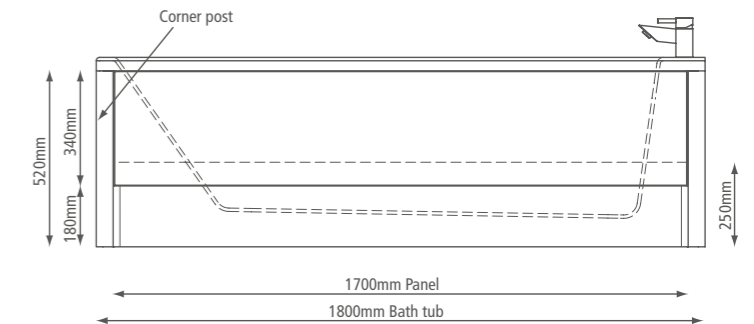

Designed to complement all door styles. Both front and end panels are supplied with a matching plinth which allows for adjustment depending on site conditions. To achieve a continuous look between the furniture and the bath panel, it is recommended that the panel is set at a height of 520mm, so that a plinth height of 180mm is achieved.

Note: Once installed all bath panels must be sealed along the top, bottom and sides with a suitable silicone sealant to prevent damage from excessive moisture.

Corner Posts (For Bath Panels)

Designed to provide a neat joint on an exposed corner of a bath between front and end panels. The corner posts can also be used to allow larger sized bath tubs to be accommodated with the panels available in the range. A corner post will add 50mm in length to a panel, so using two corner posts would allow an 1800mm tub to be installed.

Please note: Corner posts only available for painted finishes.

TERMS & CONDITIONS

Roper Rhodes Fitted Furniture must be installed by a qualified fitter. In the unlikely event that your product is damaged or faulty in any way, this must be notified on receipt, and must not under any circumstances be fitted. Time must be allowed between delivery and installation for checking items and the delivery of subsequent replacements. Attention is drawn to the policy of replacing any damaged part with a spare part where possible. Complete exchanges will only be made if damage is excessive. We shall not be liable for any further unfitting/refitting costs or financial compensation. Components/products that are deemed defective as a result of incorrect or substandard installation or improper or negligent use will be excluded from any guarantee claim. Roper Rhodes Ltd reserve the right to amend specifications at any time if an opportunity to further improve the product occurs.

All dimensions are approximate, especially with ceramic sanitaryware where a tolerance of +/- 2% must be allowed.

Doors and fascias are supplied separately to the furniture units, to prevent them from being damaged during the installation process. Doors are simply fixed by your fitter screwing the necessary hardware to the backs of the doors or fascias and simply clicking into place on the relevant hinge plate inside the unit. Mirror glass cabinets are supplied with doors installed.

Doors are supplied un-drilled for handles due to the wide variety of handles and possible positions. Any competent fitter will be able to fit them in the positions which best suit the design of your individual bathroom. All units are supplied assembled with the exception of the storage shelf units (which can be modified if necessary to fit a smaller gap) and the mirror shelf unit.

All timber finishes featured within this brochure are timber effect. Please note that there may be some slight variation between carcasses, doors and worktops due to different manufacturing techniques used.

Roper Rhodes bathroom furniture is designed for use within domestic installations which are adequately ventilated. As with any timber product, bathroom furniture will be adversely affected if it is subjected to excessive moisture. It is strongly recommended that adequate bathroom extractor fans are installed to prevent heavy condensation and all splashes and spillages must be mopped dry as soon as possible. All exposed or cut surfaces must be sealed with a suitable varnish or silicone sealant to prevent blowing. If this is not done, all guarantee claims will be void. In particular, silicone sealant must be used around basins and worktop joints, and around all edges of bath panels and plinths if the sealer strip is not utilised. All electrical products should be installed by an approved electrician in line with current wiring regulations. Guarantees are for domestic use only and not transferable.
