HOW TO ORDER...

1 CHOOSE YOUR DOOR STYLE AND FINISH

The most important choice when determining the look of your bathroom is door style and finish. Choose from the classic shaker style of Legacy or the ultra modern simplicity of Calm slab style doors.

2 COMBINATION AND DEPTH OF UNITS

Consider the available space in your bathroom and choose from either standard depth (353mm) or space saving reduced depth (218mm) units. Establish how you use your space and plan your design accordingly.

3 CHOOSE YOUR WORKTOP OR ALL IN ONE ISOCAST BASIN

Select a worktop from either laminate or solid surface options. Alternatively opt for an integrated basin and worktop for a seamless look.

4 PANELS, PLINTHS AND BATH PANELS

Clad-on end panels are available for all finishes. They can also be used between units to achieve a framed effect. Plinths are available to create a fully integrated floor mounted look or alternatively you can wall mount your furniture.

DON'T FORGET TO ORDER YOUR CLADDING PANELS!

5 HANDLES AND OTHER BITS

Add the perfect finishing touch to your chosen doors with our stylish selection of handles available in a range of finishes. Add other finishing touches from the Tavistock range. Taps, Mirrors, Basins and WCs are available.

ZAMORI SHOWER TRAYS

QUALITY SPECIFICATIONS

- **Anti-Slip** - The Zamori anti-slip option features the highest possible anti-slip rating. The anti-slip surface is embedded into the tray material during the manufacturing process. This gives a high quality look and feel compared to most other anti-slip trays, where the anti-slip surface is applied after production
- **Antibacterial** - All Zamori trays are impregnated with a bacteria and mould fighting "Zemoic" agent. The antibacterial property of Zamori trays means increased hygiene and easier cleaning
- **Patent Re-inforcement** - Zamori trays are acrylic capped and feature a patented steel reinforcement frame within the tray. This ensures strength, rigidity and a lifetime of use

FEATURES AND BENEFITS

- 35mm high shower trays for that contemporary look
- Lightweight but incredibly strong
- Flexible installation. Trays can be fitted on, sunk into and above the floor
- High quality acrylic finish
- A huge variety of sizes
- Legset and panel kits available

CLOSE COUPLED SENSOR FLUSH KITS

With a simple wave of the hand, hygienic, contactless flushing is now here for close coupled WCs. Two sizes are available depending on the size of the flush button hole in the cistern lid. The button kits have been designed to retro-fit to existing WCs which have paddle operated flush valves. For cisterns which have pneumatic or cable operated flush valves, or where the button screws in directly to the flush valve, then the flush valve will also need to be swapped to our TR9033 valve which has a 2" base.
